

Dear Parent/Guardian,

Going forward our Centre will be using the OWNA Childcare App which allows you to see your child's daily stats & activities at any time. Teachers share photos, videos, stories and reflections in real time. Parents can read and respond to posts, upload their own photos, and stay updated on announcements. The App is available via an iOS (Apple) or Android enabled device.

The App provides a secure environment to improve communication. Collaboration between parent & educators is at the heart of our service and we understand that our services can improve with increased engagement between parent & educators. Learning is visible so when everyone is on the same page, the outcomes for the children can only be positive.

To begin using the App we need to have your permission to upload photos, videos, learning stories and artwork involving your child onto the OWNA platform. Please sign below and return to us. Also, please provide your email address so we can send you an invitation to join the App.

Name of child:

.....

As the parent, guardian or responsible adult for the above child, I consent to the above service's collection, use and display of my child's information on the App in accordance with OWNA's Privacy Policy:
